

Evaluation Quality and Synthesis of Findings and Lessons Learned

Education Sector, 2013-2016

USAID's Office of Education commissioned a synthesis of findings and lessons learned from evaluations related to the objectives of the Agency's 2011-2015 Education Strategy, as well as a quality assessment of those evaluations. This innovative study generated evidence that will inform future USAID education programming. Nine products associated with the study can be viewed by clicking on the icons below or the hyperlinks on the opposite page.

Evaluation Quality Tool

This tool, developed as part of the quality review process, is based on internationally recognized best practices in evaluation. Its development benefited from an extensive collaborative process with the internal education community.
