

# The 4Ws of Education in Emergencies Data: Who has What Data? Where Can I Find it? And Why is this so Complicated?

# Webinar Housekeeping

Mute your microphone and turn off your video to minimize background noise.

Post questions in the chat area at any time. We'll respond to as many as possible.

This session is being recorded.

The recording and presentations will be shared on the INEE website – [www.inee.org](http://www.inee.org).

# Navigating Humanitarian Operations Education Data for EiE

---

**Kathleen Denny**

*Technical Officer III, Education in Emergencies, FHI 360*

**Sean Cremin**

*Research Analyst, G3E Research & Evaluation, FHI 360*

# Agenda

- What is MEERS?
- How Does the Humanitarian Response System Work and What are the Implications for Data?
- What is Humanitarian Operations Education Data in an EiE context?
- Who has Humanitarian Operations Education Data and Where can I find it?
- What can Humanitarian Operations Education Data be used for?
- Additional Sources of Humanitarian Education Data and Information
- Discussion / Q&A

# What is MEERS?

# Middle East Education Research, Training and Support (MEERS)

- 4-year project funded by USAID's Middle East Bureau and implemented by Social Impact and FHI 360
- Objective: support continuous data collection, research, training, and analysis related to learners, teachers, education systems, and education outcomes in the Middle East.
- TASK 1: Continuous data collection on education in the crisis contexts of Iraq, Syria and Yemen and associated refugee contexts

IRAQ

SYRIA

YEMEN

# MEERS TASK 1 Methodology

What EiE data is publicly available for the Iraq, Syria and Yemen crises?

What data do EiE stakeholders collect, need and use? What are the gaps?

Who is doing what to address EiE data issues and challenges?

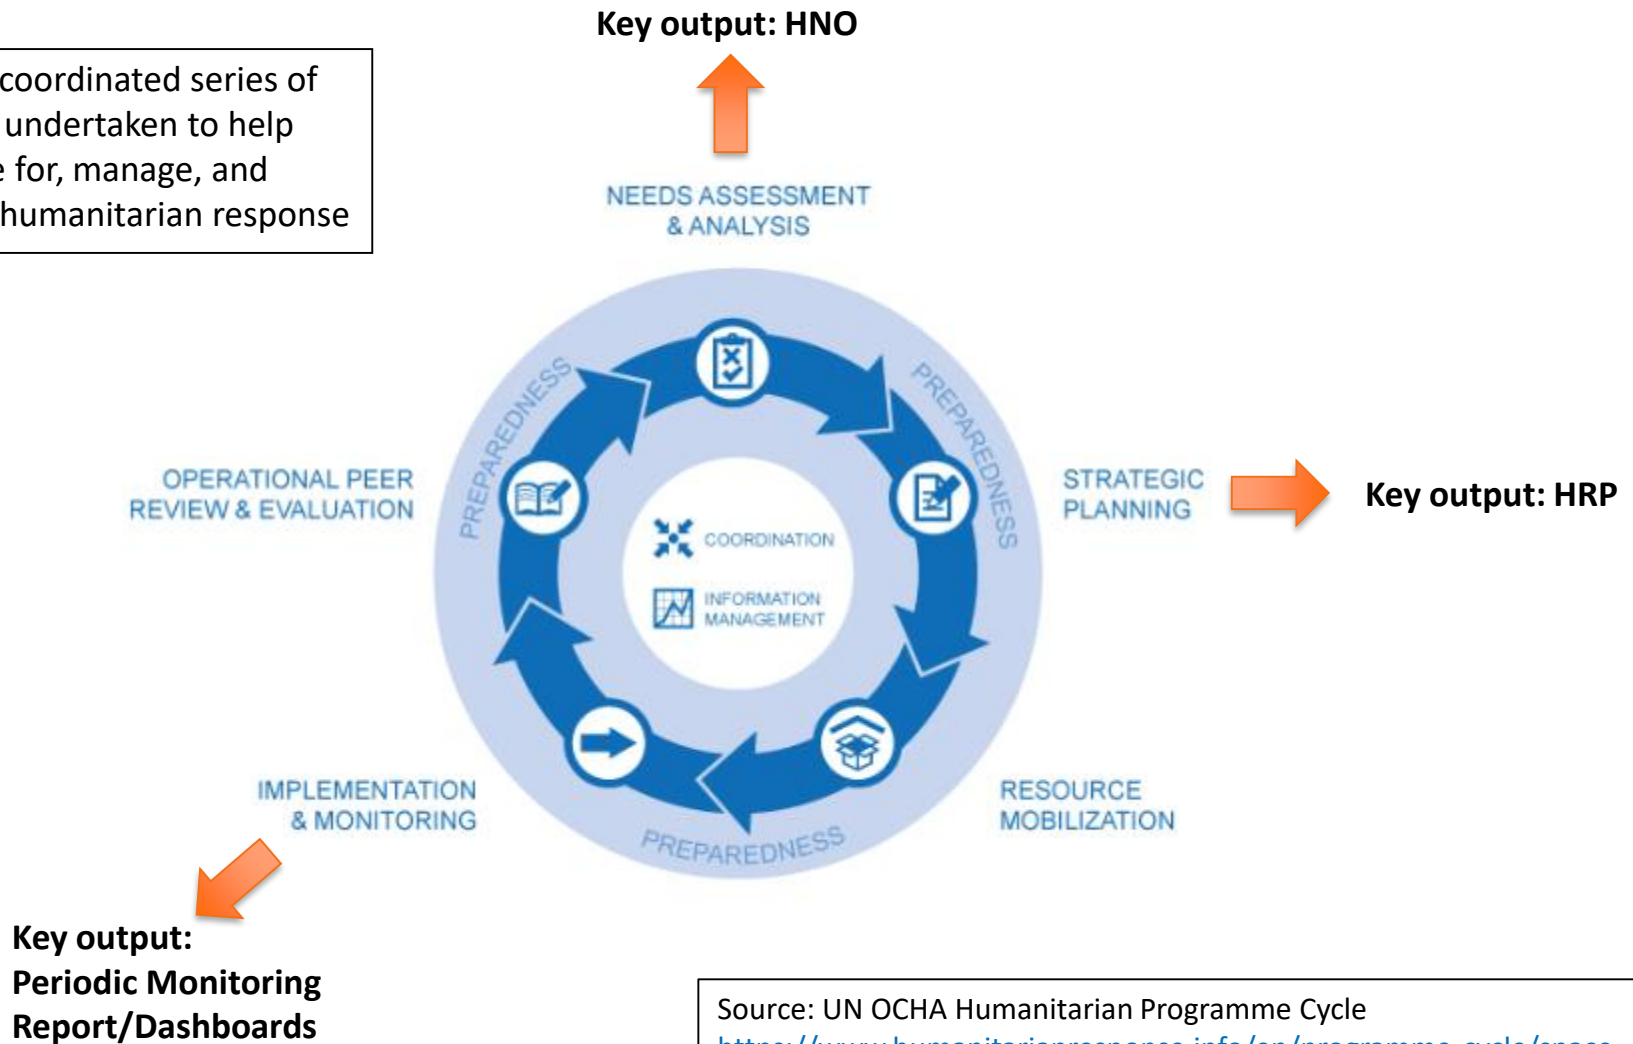

What can be done to support improved accessibility, quality and navigability of EiE data?

# How Does the Humanitarian Response System Work and What are the Implications for Data?

# Humanitarian Programme Cycle (HPC)

**HPC:** A coordinated series of actions undertaken to help prepare for, manage, and deliver humanitarian response

Source: UN OCHA Humanitarian Programme Cycle

INFORMATION  
MANAGEMENT FOR  
EVERYONE

Monitoring & Evaluation  
software for humanitarian  
operations

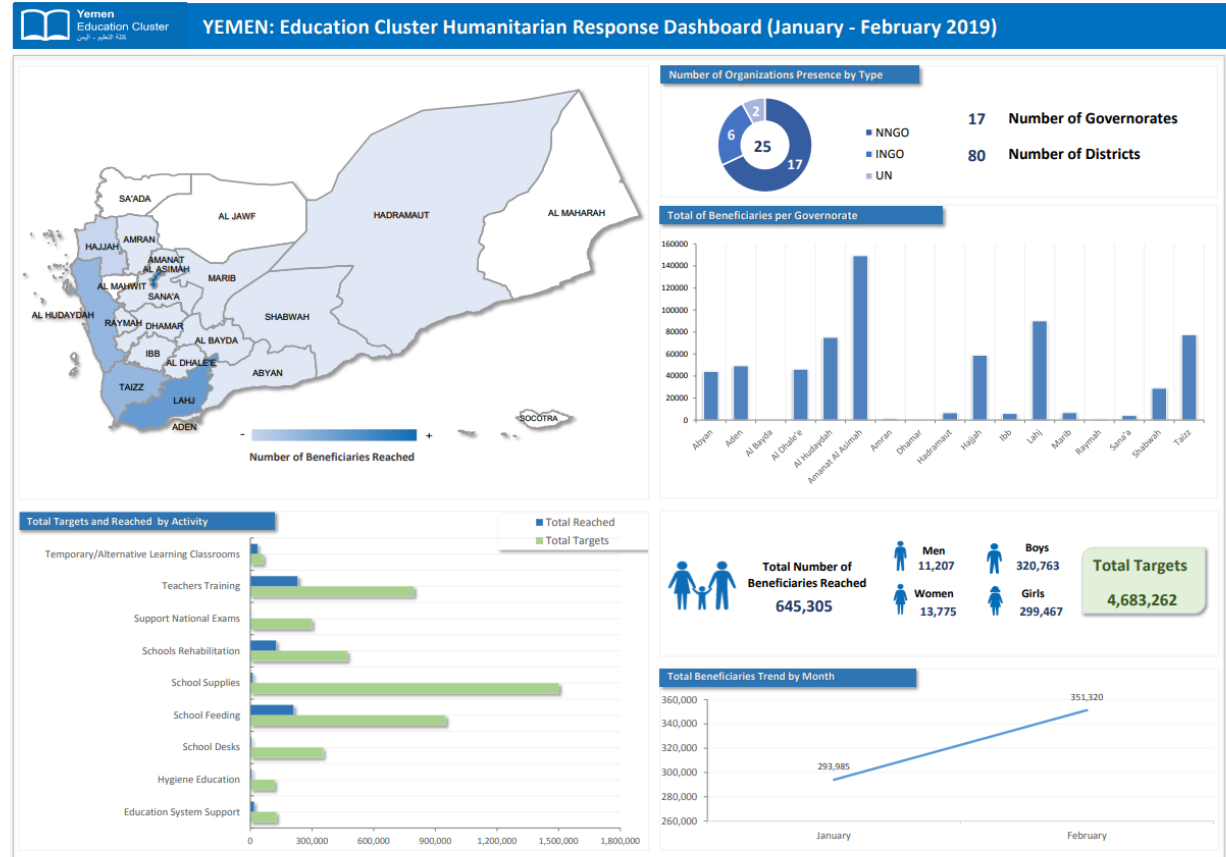

# 3/4/5Ws

- WHO does WHAT, WHERE, WHEN, and for WHOM
- Mapping tools that show partner and operational presence in emergency situations
- Used to avoid duplication of efforts and to identify response gaps
- National level 3/4/5Ws are collected through ActivityInfo
- Sub-national 3/4/5Ws are collected using Excel spreadsheets
- Typically aggregated in Excel spreadsheets and data is visualized in dashboards (PDF format or live versions using PowerBI)

# Education Cluster Response Dashboards

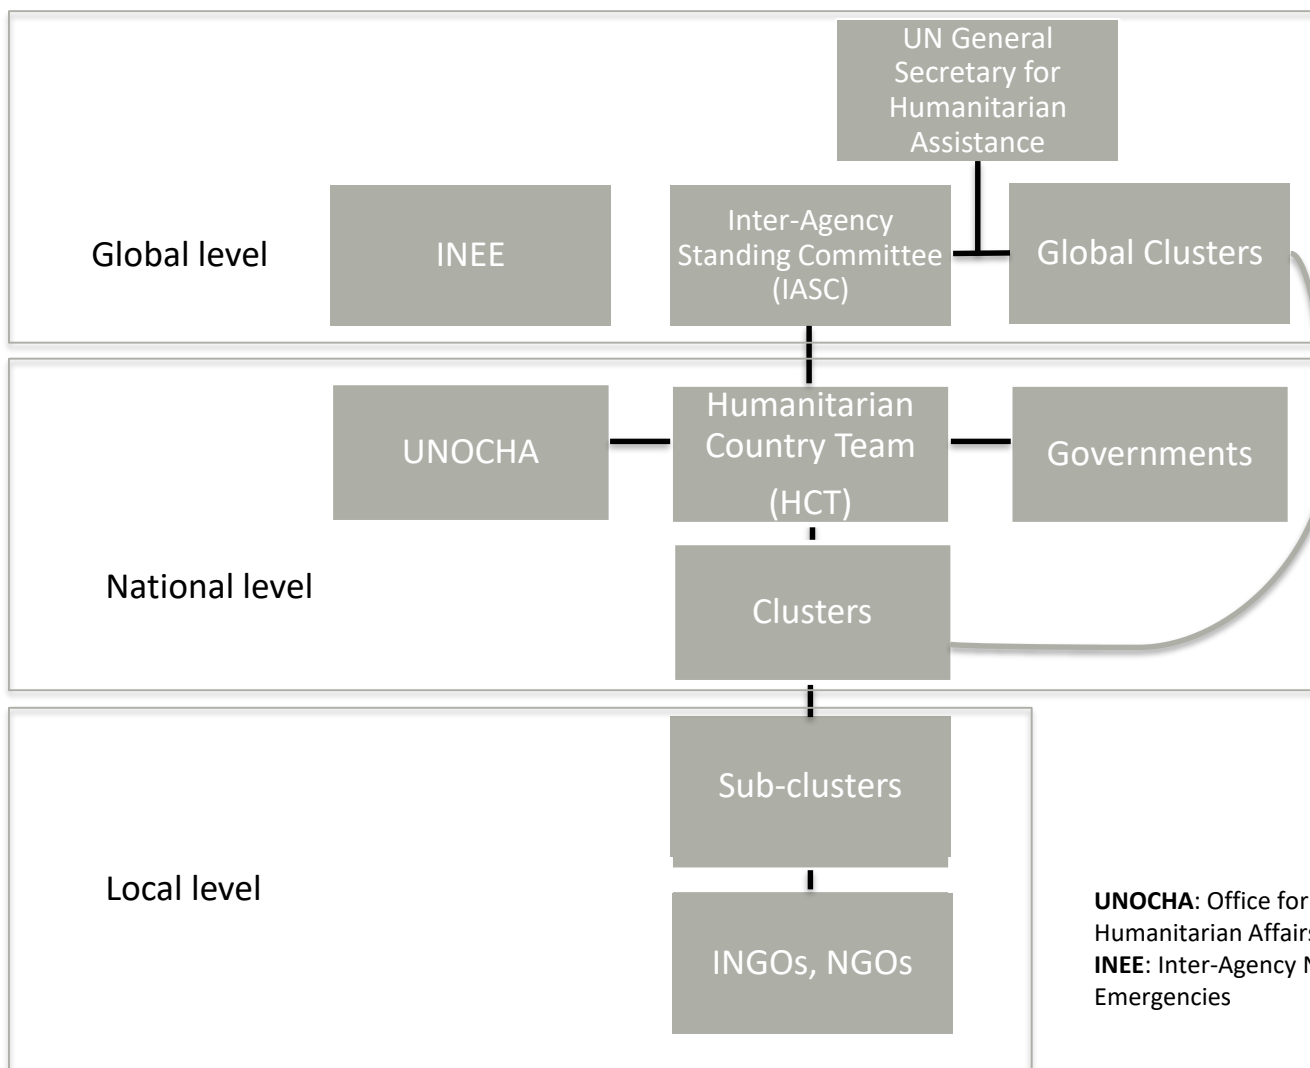

- Data visualizations created by Education Clusters to consolidate data reported by partners through ActivityInfo
- Show progress toward reaching target indicators and sometimes contain contextual indicators
- Can be in PDF format or live (PowerBI)

# Needs Assessments

- Reports used to identify needs of beneficiaries and gaps in coverage by education authorities and partners during humanitarian response
- Helps determine types and locations of interventions, target populations (i.e. IDPs, refugees, returnees, and/or host communities), and potential partners
- Examples:
  - Education Cluster assessments
  - Education partner assessments
  - REACH assessments
  - Security assessments
  - Other sector assessments (i.e. child protection, WASG, cash, etc.)

# Humanitarian Education Data - Key Actors

**UNOCHA:** Office for Coordination of Humanitarian Affairs  
**INEE:** Inter-Agency Network for Education in Emergencies

# Humanitarian Education Data - Key Actors

- **United Nations Office for the Coordination of Humanitarian Affairs (UN OCHA)**
  - UN agency responsible for bringing humanitarian actors together to ensure a coordinated response to emergencies
- **Education Cluster (co-leads: UNICEF/Save the Children)**
  - An open formal forum for coordination and collaboration in education response in emergencies; liaise with MoE
  - National cluster and regional sub-clusters
- **UNHCR**
  - Leads coordination of a refugee response and helps produce refugee response plans
- **Other coordinating groups**
  - Development partner groups, local coordination groups

# Data Collection Challenges and Quality Issues in Humanitarian Contexts

- Collapsed systems
- Beneficiary movement
- Access
- Limited capacity and oversight
- Underreporting or double counting
- Project indicators differ from HRP/Activity Info indicators
- Lack of standardized/validated tools

# What is Humanitarian Operations Education Data in an EiE Context?

# Educational Development vs. Humanitarian Data

- What are differences and similarities between educational development and humanitarian education data?

## Educational Development Data

- Infrequent (annual)
- Relatively stable reference population
- Focus on overall education system
- Clear understanding of what data coverage, reliability, quality mean

## Humanitarian Education Data

- Populations, including refugees and IDPs
- Need for similar information and indicators
- Frequent (weekly, monthly)
- No stable reference population
- Focus on education services provided, usually outside the system
- Lack of clear understanding of what data coverage, reliability, and quality mean

# Humanitarian Education Data Overview

- **What is it?**

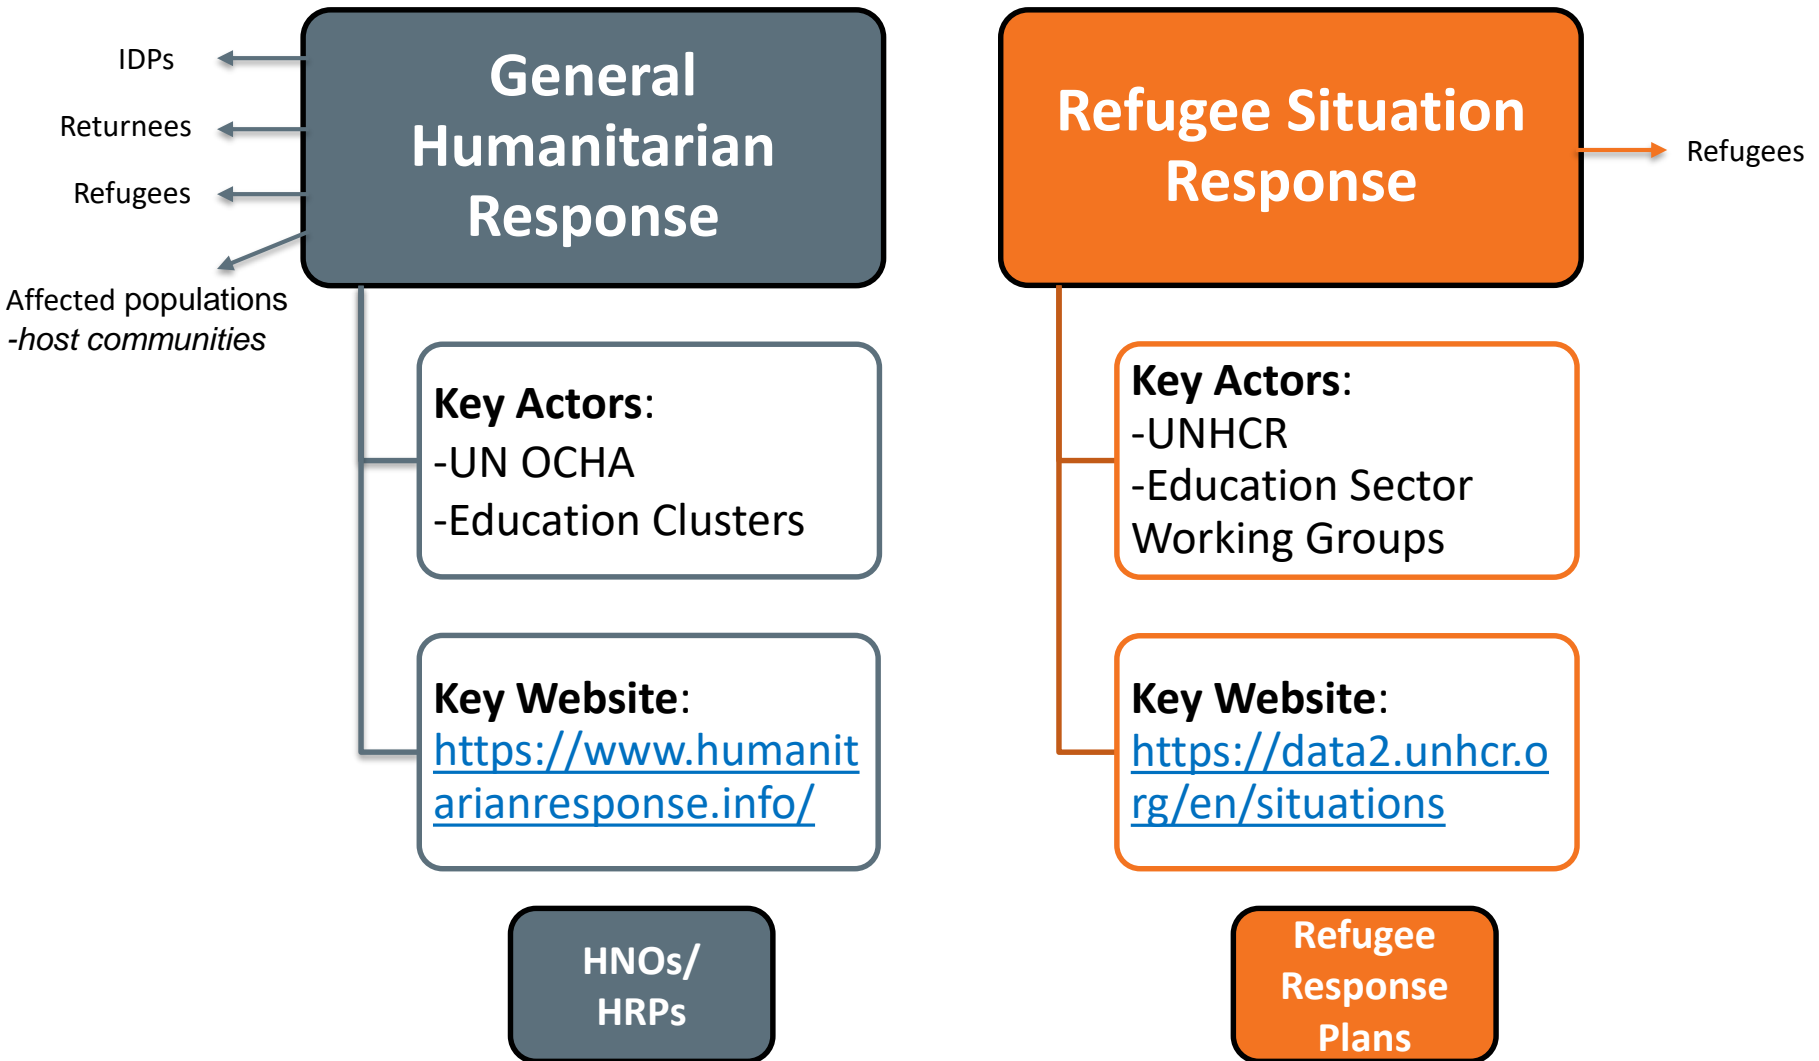

- Context-specific education data collected as part of a humanitarian response to an emergency
- Key education indicators:
  - **Demand:** # of children in need of education assistance, # of OOSC
  - **Supply:** # of school supplies provided, # of teachers trained, # of classrooms reconstructed, # of children enrolled in non-formal education
  - **Sector-wide coordination:** # of education partners, funding received

- **Why is humanitarian education data relevant to EiE?**

- Represents a large amount of education information that exists during an emergency
- Helps identify needs and gaps in a conflict-affected education system
- Helps identify what educational needs have been met (response)
- Informs coordination of the education response
- We can use it to advocate for more resources

# Data Source Overview: UNOCHA/Education Clusters/Partners

➤ <https://www.humanitarianresponse.info/>

- A website for the humanitarian response community to find and share operational information on humanitarian responses

- **Source: [HNOs/HRPs](#)**

- Key documents that identify populations in need and inform responses
- *Pros:* Provide contextual information; identify numbers of people in need, define monitoring framework for each sector
- *Cons:* Estimates can be inaccurate; process can be rushed and not consultative

Illustrative Indicators + Data Types

✓ **Populations in need and contextual information:** # of children in need of educational assistance; # of IDPs

- **Source: [3/4/5Ws](#)**

- Mapping tool to show operational/partner presence during a response
- *Pros:* Helps coordinate the response and avoid duplication of efforts
- *Cons:* Can be incomplete; inaccurate; timeliness; lack of detail

Illustrative Indicators + Data Types

✓ **Operational & partner presence:** # and location of education partners; types of activities/programs

- **Source: [Education Cluster Dashboards](#)**

- Monitoring tools that show progress toward HRP indicators
- *Pros:* Show gaps in the response; identify numbers of people in need
- *Cons:* Can be inaccurate; timeliness; indicator definitions are not standardized

Illustrative Indicators + Data Types

✓ **Education response indicators:** # of children enrolled in NFE; # of teachers trained; # of school supplies provided

- **Source: [Needs Assessments](#)**

- Reports that identify needs of populations in emergency situations
- *Pros:* Timeliness; provides evidence base for strategic planning; identify priority needs
- *Cons:* Methodology; not always representative of population

Illustrative Indicators + Data Types

✓ **Needs and contextual information:** # of conflict-affected persons

# Navigating Humanitarian Education Data

**Activity 1:** Use [humanitarianresponse.info](https://www.humanitarianresponse.info) to identify how many Education Cluster partners are operating in Yemen according to the most recent data.

The screenshot shows the HumanitarianResponse.info website. The main navigation bar includes 'OCHA Services', 'Log In', and a language dropdown. Below this is a search bar and a menu with 'OPERATIONS', 'COORDINATION', 'PROGRAMME CYCLE', 'TOPICS', and 'APPLICATIONS'. The 'OPERATIONS' section is highlighted with an orange arrow and lists countries: Afghanistan, Mozambique, République Démocratique du Congo, Somalia, Ukraine, Whole of Syria, Yemen, and Zimbabwe. Other sections include 'ASSESSMENTS, DOCUMENTS, & MAPS' (with links like 3W / 4W, Appeals, Assessments, etc.) and 'HUMANITARIAN SYSTEM' (with links like Cluster Approach, Humanitarian Programme Cycle, etc.). The footer has 'ABOUT', 'PRIVACY', and 'TERMS OF USE' links.

# Navigating Humanitarian Education Data

**Activity 1:** After navigating to the Yemen page, click the Maps/Infographics tab.

The screenshot shows the website interface for Yemen. The browser address bar displays <https://www.humanitarianresponse.info/operations/yemen>. The main navigation bar includes 'Humanitarian RESPONSE' and a search box labeled 'Search Yemen'. A secondary navigation bar contains 'OPERATIONS', 'COORDINATION', 'PROGRAMME CYCLE', 'TOPICS', and 'APPLICATIONS'. Below this, a 'YEMEN' section features a menu with 'Contacts', 'Events', 'Documents', 'Maps/Infographics', 'Datasets', and 'Offices'. The 'Maps/Infographics' tab is highlighted with a red underline and an orange arrow pointing to it. On the left, a 'CLUSTERS' sidebar lists various categories such as 'Education', 'Health', and 'Protection'. The main content area features a 'UNDSS Safe and Secure Approaches in Field Environments (SSAFE) Training' banner and an 'HPC INTERACTIVE MICROSITE' section with a promotional image for Yemen's humanitarian crisis and a list of 'Best Features' including 'Interactive Cluster', 'Thematic Dashboards', 'Maps', and 'IDPs and Returnees movement'.

# Navigating Humanitarian Education Data

**Activity 1:** On the Yemen Maps/Infographics page, filter by map/infographic type and select 3W.

The screenshot shows the 'Humanitarian Response' website interface. The top navigation bar includes 'OCHA Services', 'Log in', and language options. The main header features 'Humanitarian RESPONSE' and a search bar. Below the header, there are navigation tabs for 'YEMEN', 'Contacts', 'Events', 'Documents', 'Maps/Infographics', 'Datasets', and 'Offices'. The 'Maps/Infographics' section is active, showing a filter for '1540 items displayed'. The filter sidebar on the left is expanded to show 'Filter by map/infographic type:' with a list of categories including 'Infographic (525)', 'Thematic Maps (453)', and '3W (441)'. Two orange arrows point to the 'Filter by map/infographic type:' dropdown and the '3W (441)' category. The main content area displays two 'Nutrition Cluster Dashboard' items, each with a thumbnail, title, organization (United Nations Children's Fund), original publication date, and map/infographic type (Humanitarian Dashboard). Each item has 'read more', 'share', and 'download' buttons.

# Navigating Humanitarian Education Data

**Activity 1:** Identify the most recent 3W document.

The screenshot shows a web browser window with the URL <https://www.humanitarianresponse.info/en/operations/yemen/infographics/infographic-type/3w>. The page features a filter section on the left with two dropdown menus: "Filter by original publication date:" and "Filter by disaster(s)/emergency:". Below these is a "NEWSFEED" button with a RSS icon. An orange arrow points from the "NEWSFEED" button to the first document in the list.

The first document is titled [Yemen-Education Cluster Partners Presence-Activities-As of Feb- 2019](#). It includes a thumbnail image of a map and the following details:

- Original Publication Date: 23 Mar 2019
- Map/Infographic Type: Programme Presence

Buttons for "read more", "share", and "download" are located below the document details.

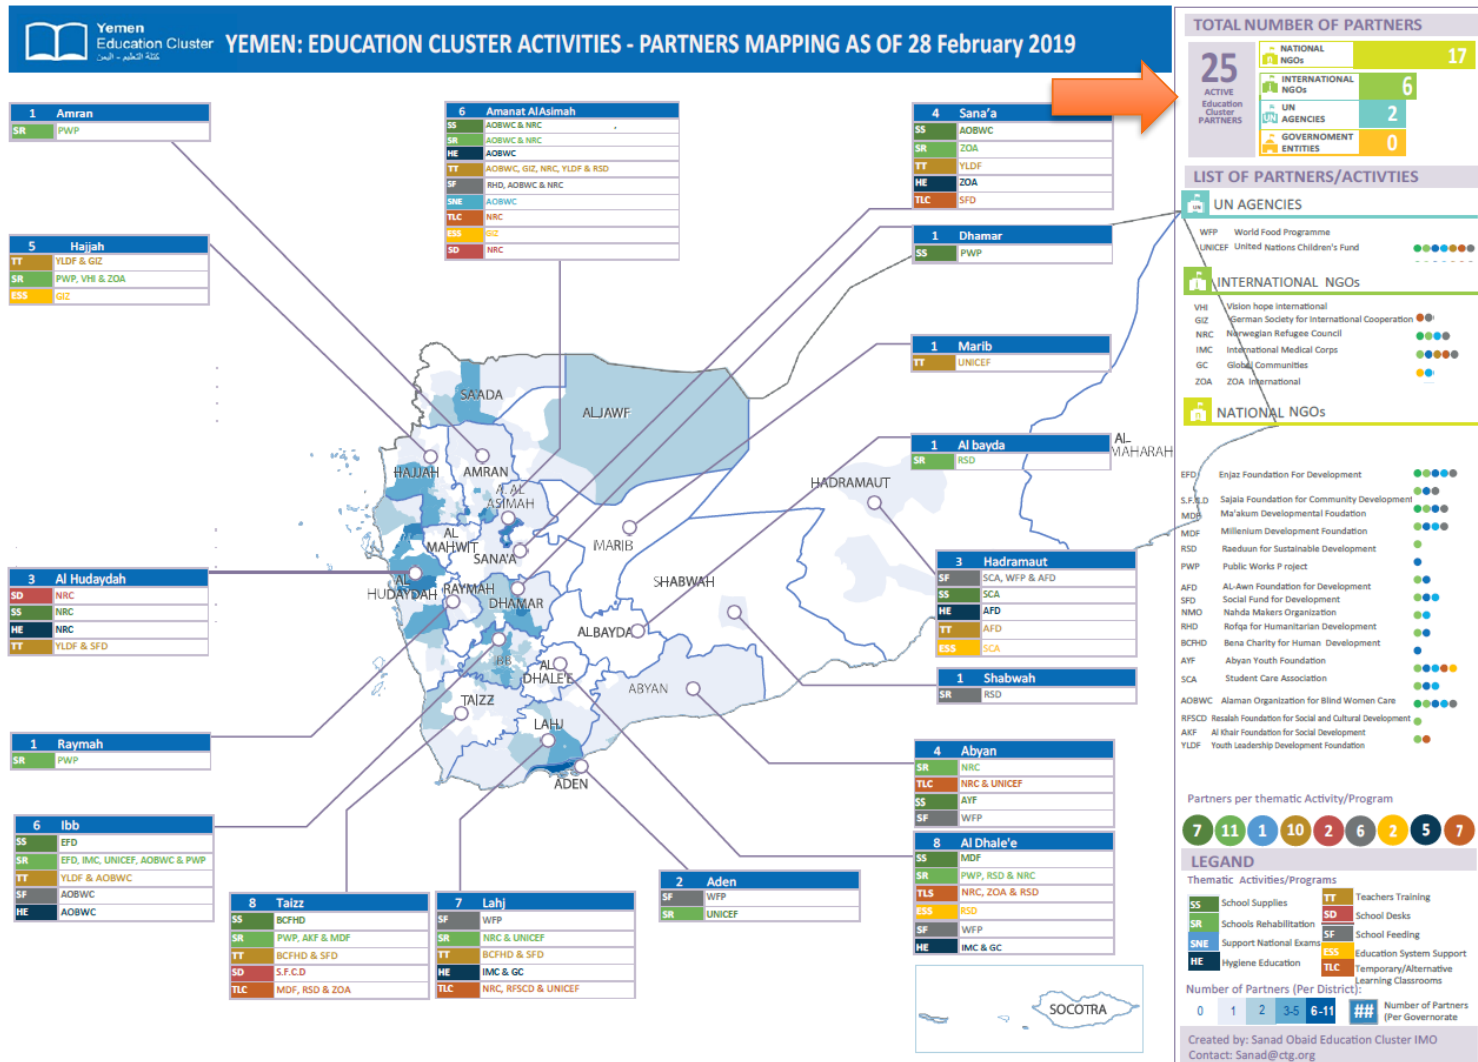

The second document is titled [Yemen: Organizations 3W Operational Presence \(December 2018\) \[EN/AR\]](#). It includes a thumbnail image of a multi-page infographic and the following details:

- Organization(s): United Nations Office for the Coordination of Humanitarian Affairs
- Original Publication Date: 06 Feb 2019
- Map/Infographic Type: Operational Presence

Buttons for "read more", "share", and "download" are located below the document details.

[Syria Crisis Education Information Management Workshop Report](#)

# Navigating Humanitarian Education Data

## ➤ Whole of Syria Education Fact Sheet, September 2018, p.1

### WHOLE OF SYRIA: EDUCATION FACT SHEET (Update as of September 2018)

The education sector is comprised of approximately 190 partners including, UN, INGOs, NGOs, Red Cross (Syrian Arab Red Crescent and Palestine Red Crescent Society) and government agencies operating in 14 governorates. The education sector ensures access to safe, equitable and quality education for children and youth affected by the crisis in Syria and works to strengthen the capacity of the education system and communities to deliver a timely, coordinated and evidence-based education response.

#### KEY FIGURES

**6.07 million**

School-age children (5-17 years) in need of education assistance (updated from the OCHA estimated population data as of June 2018)

People in Need (PIN) categories are generally defined according to the Inter-Agency Standing Committee (IASC) guidelines in order to outline the humanitarian profile. PIN are a sub-set of the population affected and include those who require some form of humanitarian assistance.

**2.08 million**

School-age children (5-17 years) are out of school (updated from the Whole of Syria education sector analysis for 2016/17 school year)

Out of school (OOS) refers to the status of children in the basic education age who are not enrolled in formal education.

**1.87 million**

School-age children (5-17 years) are internally displaced (updated from the Syria IDP Task Force as of September 2018)

Internally displaced people (IDPs) are persons who have not crossed a border and stay within their home country.

**0.46 million**

School-age children (5-17 years) live in hard-to-reach areas (as of 27 July 2018)

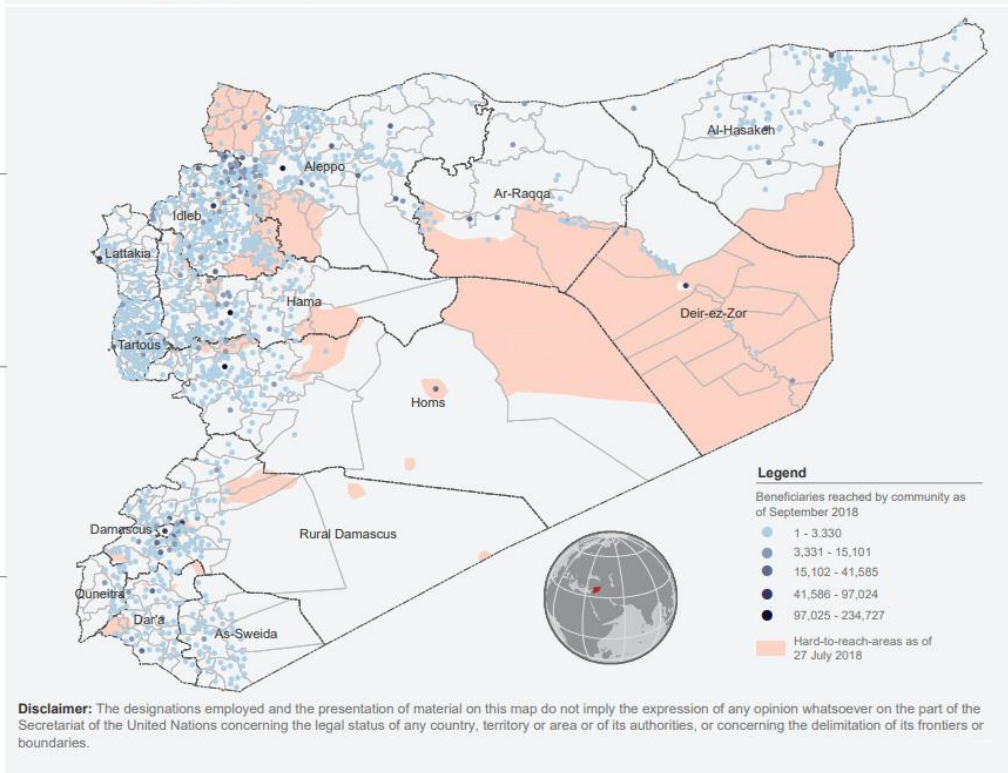

Hard-to-reach area: An area that is not regularly accessible to humanitarian actors for the purposes of sustained humanitarian programming as a result of denial of access, including the need to negotiate access on an ad hoc basis, or due to restrictions such as active conflict, multiple security checkpoints, or failure of the authorities to provide timely approval.

#### TOTAL REACHED AS OF SEPTEMBER 2018

**2.64 million** (50% females) children and youth, teachers and education personnel benefiting from quality education programmes, including

**66%** coverage of the **4,00 million** targeted

**323,281** reached in hard-to-reach and besieged locations (cumulative from January to September 2018)

**Activity 3:** Use the [UNHCR Operational Data Portal](https://data2.unhcr.org/en/situations) to find how many teachers and educational personnel were trained as part of the 2018 Syria Regional Refugee Response.

**Featured situations**

### Syria Regional Refugee Response

Over 5.6 million refugees have fled Syria since 2011, seeking safety in Turkey, Lebanon, Jordan, Iraq, Egypt and beyond. After almost six years of war in Syria, refugee vulnerabilities and poverty are on the rise, the impact on host communities continues to grow, and funding for the humanitarian response is not keeping up with the needs

### South Sudan

As the protracted emergency enters its sixth year, the South Sudan situation remains the largest refugee situation on the African continent. There are over 2.2 million refugees in Sudan, Uganda, Ethiopia, Kenya and the Democratic Republic of the Congo and a further 1.8 million people displaced internally in South Sudan. The situation continues to be characterized as a children's crisis with children constituting over 65 percent of the refugee population.

### DRC Situation

The on-going conflicts in the Democratic Republic of the Congo (DRC) have caused and continue to cause internal and external displacement of populations. In 2017, some 100,000 Congolese fled to neighbouring countries as refugees, due to widespread militia activities, unrest and violence, joining the 585,000 already in exile. The security conditions in DRC, especially in the eastern and central parts have continued to worsen since the beginning of 2018. Because of this, the Congolese refugee population is now among the ten largest in the world. Nearly 55 per cent are

# Navigating Humanitarian Education Data

- Example of a country-specific Refugee Response Education Dashboard: [Iraq 3RP Education Monthly Update Dashboard, September 2018](#)

# Data Source Overview: UN OCHA Financial Tracking Service (FTS)

➤ <https://fts.unocha.org/>

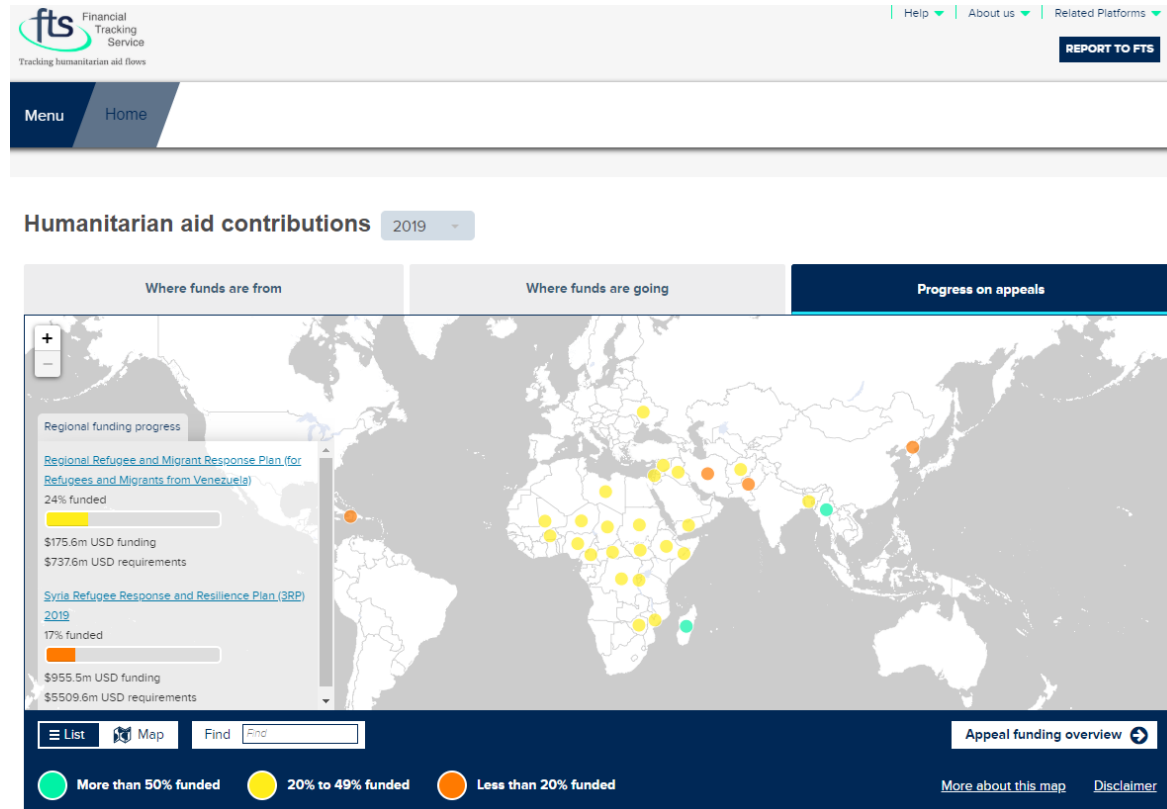

- A service provided by UN OCHA that shows information on international humanitarian funding flows.

## Source: [UN OCHA FTS](#)

- A website that contains global humanitarian funding information and shows funding flows by humanitarian situations.
- *Pros:* Provides information on funding attained through response plan appeals and outside of plans; shows funding gaps; shows funding trends
- *Cons:* Sometimes does not include all sources of funding

### Illustrative Indicators + Data Types

✓ **Funding:** total funding requirements; total funding provided; funding provided by cluster; funding provided by donor

# What can Humanitarian Operations Education Data be used for in EiE?

## How can Humanitarian Education Data be used in EiE?

## Key Indicators

## Humanitarian Education Data Sources

To coordinate the education response (i.e. identify who is doing what where?)

Partner/operational presence (# of education partners by type and location)

3/4/5Ws

To find contextual information and identify educational needs to inform the response

Contextual indicators (# of children in need, # of school-age refugees/IDPs)

Needs Assessments

To monitor progress toward HRP targets and identify gaps in the response

Response indicators (progress/targets)

Education Response Dashboards

UNHCR Operational Data Portal

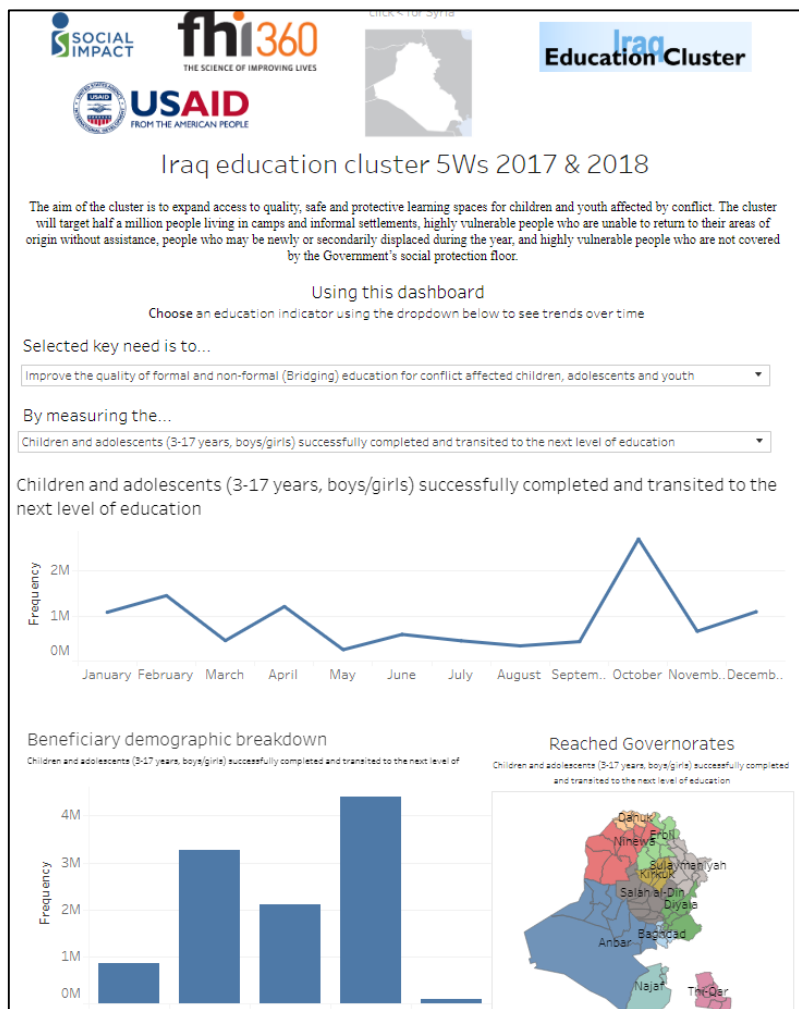

# Additional Sources of Humanitarian Education Data and Information

- [UN OCHA Humanitarian Data Exchange \(HDX\)](#)
  - Provides datasets and visualizations across humanitarian responses and sectors
- [Global Education Cluster Tools and Resources](#)
  - Information and Knowledge Management
- Other Sectors/Clusters (i.e. Protection/CCCM)
- [UNICEF Humanitarian Action for Children \(HAC\)](#)
  - Find previous appeals [here](#)
- Contextual Data
  - Population Movement & Forced Displacement Data
  - Conflict/Security Data

# HDX Data Visualizations of Education Cluster Data from Iraq and Syria

## Using this Dashboard

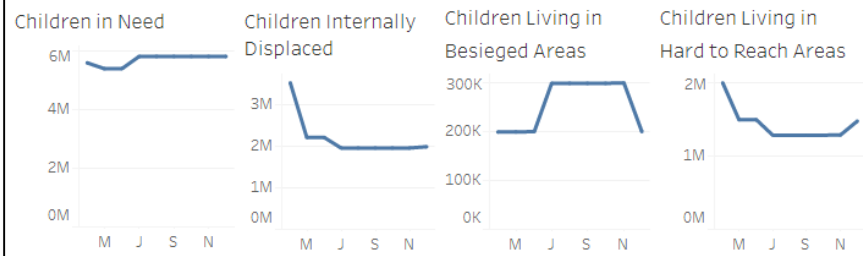

Each year key needs are taken from the humanitarian needs overview (HNO) and form key objectives. From these, sector indicators are developed to measure progress against these goals. Use the filters below to highlight the Year, and the Sector Indicator. The results for the year will adjust and be displayed on the line graph as well as the Key Fact figures for the year.

Year  2016  2017  
Indicator

children benefitting from school feeding programmes (5-17 years, girls/boys)

## Key Facts (adjusts to year selected above)

# Q&A
